Abstract

Product (A) containing one or more collagens (I) or their derivatives (including hydrolyzates) and having low odor in which at least part of (I) or derivatives is of marine origin (from fish, jellyfish, molluscs, mussels etc.). At some stage in their preparation, has been subjected to deodorizing treatment. Independent claims are also included for the following: (a) sponges, membranes masks made of marine collagen; (b) preparation of products that include marine collagen; and (c) cosmetic or pharmaceutical products, especially biomaterials, made at least partly from marine collagen.
